The Behavioral and Brain Sciences

An International Journal of Current Research and Theory with Open Peer Commentary

ISSN 0140-525X

Editor
Stevan Harnad
20 Nassau St., Suite 240
Princeton, NJ 08540

Assistant Editor
Helaine Randerson

Associate Editors
Behavioral Biology
Jack P. Hailman/U. Wisconsin
Hubert Markl/Universität Konstanz

Biosocial Behavior
Glendon Schubert/U. Hawaii, Manoa

Cognition and Artificial Intelligence
Zenon Pylyshyn/U. Western Ontario

Cognitive Development
Annette Karmiloff-Smith/Nijmegen and U. Sussex

Cognitive Neuroscience
Lynn Nadel/U. California, Irvine

Developmental Psychology
Charles J. Brainerd/U. Western Ontario

Evolutionary Biology
Michael T. Ghiselin/U. Utah

Experimental Analysis of Behavior
A. Charles Catania/U. Maryland, Baltimore County

History and Systems
Julian Jaynes/Princeton

Language and Cognition
Peter Wason/University College, London

Language and Language Disorders
Max Coltheart/U. London

Neurobiology
Graham Hoyle/U. Oregon

Neuropharmacology
Susan D. Iversen/U. Cambridge

Neuropsychology
Jeffrey A. Gray/U. Oxford

Neurophysiology
Sten Grillner/Karolinska Institutet

Paleoneurology
Stephen Jay Gould/Harvard

Philosophy
Daniel C. Dennett/Tufts

Psychobiology
Victor H. Denenberg/U. Connecticut
David S. Olton/Johns Hopkins

Quantitative Methods
Donald B. Rubin/U. Wisconsin

Vision and Artificial Intelligence
Stuart Sutherland/U. Sussex

Volume 5 1982

Cambridge University Press
